

Author Tool Kit

This is a short list of good resources to utilize for finding open access publications and when you are considering where to publish your research. Resources are listed as they appear in the presentation.

Green Open Access – Self-Archiving Option

[Open Policy Finder](#) (formerly Sherpa RoMEO): gives archiving policy information for thousands of journals, publishers, and funders.

Gold Open Access – Paid Open Option

[Think.Check.Submit.](#): checklist for determining legitimacy of a publisher / journal

[Endnote Match](#): finds journals indexed by Web of Science that match the criteria in your own manuscript using your title, abstract, keywords, and reference list

Creative Commons Licenses

[Creative Commons Webpage](#)

Discovering Open Access Publications – Search Engines

[Google Scholar](#)

[Epistemonikos](#): evidence-based health care articles

[Lens.org](#): patent searches and their associated research articles

[Semantic Scholar](#)

[Scinapse](#): free to search for articles, but must have subscription to do analytics

Discovering Open Access Publications – Browser Extensions

[Unpaywall](#)

[Open Access Button](#)

[CORE Discovery](#)

[Endnote Click](#)

[SciTE](#)

Diamond Open Access Journals

[DOAJ](#)

[Wiki of Open Access Lists](#)

[S2O Publishers and Journal Lists](#)

[Diamond OA Journals with Cambridge University Press](#)
